

Keep the Internet free, neutral and open

The Internet has emerged as America's most important public forum. I am relying on congress to keep it that way. Net Neutrality is essential to free speech, equal opportunity and economic innovation in America.

Please do not allow phone and cable companies to become the Internet's gatekeepers and to discriminate against Web sites that don't pay their added tolls. This would destroy the greatest public forum the world has ever known be a enormous blow to our liberty.

To maintain the Internet as a public forum that allows unfettered access for all, the FCC must ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination.
