

A Step Back Toward American Greatness Protect NN

I would like to add to the many, many voices of Americans that are requesting that our government appointed officials act on our behalf, and PROTECT NET NEUTRALITY.

If we can bring Democracy to other countries, let's practice it here. This is really much bigger than phone companies vs. the people, IT IS ABOUT OUR RIGHT TO HAVE A VOICE THAT CAN BE ACCESSED AND HEARD BY OUR FELLOW AMERICANS.

I would like to say that as a tax paying, voting American, I want my Net Neutrality, and I want the FCC to protect it.

It is so important to me that you FCC protect us, our right to a free internet, and the access that it provides us to connect to our fellow Americans.

Please help us take a step back toward American Greatness.

Net Neutrality is essential to free speech, equal opportunity and economic innovation in America. Since the FCC removed this basic protection in 2005, the top executives of phone and cable companies have stated their intention to become the Internet's gatekeepers and to discriminate against Web sites that don't pay their added tolls.

This fundamental change would end the open Internet as we know it. It would damage my ability to connect with others, share information and participate in our 21st century democracy and economy. The FCC must ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination.
