Re: **EX PARTE**
Reexamination of Roaming Obligations of Commercial Mobile Radio Service Providers,
WT Docket No. 05-265

Dear Ms. Dortch:

On July 20, 2007, Kathleen Ham of T-Mobile USA, Inc. ("T-Mobile") and the undersigned, on behalf of T-Mobile, met with Bruce Gottlieb of Commissioner Copps' office regarding the above-referenced docket on wireless roaming matters.

The T-Mobile representatives noted that because T-Mobile is a nationwide facilities-based carrier that has roaming arrangements with both larger and smaller wireless carriers, it has a unique perspective on roaming issues. Successful roaming relationships are essential to T-Mobile's ongoing competitive efforts. For example, in April 2007, T-Mobile hosted a UMTS/3G summit attended by rural and regional wireless providers as well as other interested parties where future arrangements for 3G roaming was a major topic. In addition, T-Mobile is working on pricing mechanisms that will encourage efficient data roaming. The T-Mobile representatives also discussed the attached coverage map.

The T-Mobile representatives explained that new nationwide rules regarding the provision of commercial mobile radio service roaming or roaming agreements, including a mandatory automatic roaming rule, are unnecessary at this time. Rather than adopt nationwide prophylactic rules that could have significant unintended and harmful consequences, the Commission should improve its complaint procedures to address particular issues between specific roaming parties. The T-Mobile representatives also expressed views on related roaming issues that were consistent with the comments, reply comments, and ex parte filings that T-Mobile already has submitted in the roaming proceeding.
