Re: ET Docket 04-186, *In the Matter of Unlicensed Operation in the TV Broadcast Bands*, – Notification of Oral Ex Parte Presentation

Dear Ms. Dortch:

On July 24, 2007, Dr. Paul Kolodzy of Kolodzy Consulting LLC, and the Harold Feld of the Media Access Project met with Julius Knapp, Bruce Romano, Geraldine Matisel, Ahmed Lahjouji, and others of the FCC's Office of Engineering and Technology. During the meeting, we discussed the technical issues raised from the FCC measurements and reported results from measurements made at the University of Kansas. Enclosed is a document that was distributed at the meeting which outlines the issues that were discussed.

Please let me know if you have any questions regarding this submission.

Sincerely,

Paul J Kolodzy
