UNITED STATES CELLULAR CORPORATION
QUARTERLY E911 IMPLEMENTATION REPORT

United States Cellular Corporation ("USCC"), by its undersigned attorneys,
hereby submits its quarterly E911 implementation report pursuant to the Commission's order
staying certain E911 phase II deadlines for many non-nationwide wireless carriers.¹

I. Introduction

USCC is a Tier II carrier under the *Order to Stay* issued by the Commission in 2002.² As a wireless carrier with systems serving many small and rural markets, USCC faces particular challenges in upgrading its technology and interacting with a wide variety of PSAPs across its service area. To meet these challenges, USCC continues to dedicate substantial financial and personnel resources to accelerate the deployment of E911 service throughout its service area. USCC personnel maintain regular communication with PSAPs that are at varying levels of readiness in the provision of E911 service to ensure prompt roll-outs once the PSAPs

¹ See *Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems, Phase II Compliance Deadlines for Non-Nationwide CMRS Carriers, Order to Stay*, 17 FCC Rcd. 14841 (2002) ("*Order to Stay*").

are upgraded to receive and utilize either phase I or phase II E911 information. In addition, USCC closely monitors its E911 vendors to facilitate E911 deployment to all requesting PSAPs.

USCC continues to make great progress toward the provision of E911 service throughout its service area. In 2004, USCC completed an ambitious, four-year, multimillion dollar CDMA overbuild in all of its TDMA markets, an upgrade that enabled it to deploy a phase II compliant handset solution in cooperation with upgraded PSAPs that requested the service. USCC's cooperative phase II deployment effort employed during its CDMA conversion effectively became the standard utilized by the FCC in considering the phase II waiver requests filed by Tier III carriers proposing a conversion from TDMA to CDMA.³

II. Status of Phase I Requests

USCC and its E911 vendor, Intrado, actively work with all requesting PSAPs to deploy phase I E911 service throughout USCC's service area. In numerous cases, USCC has proceeded with deployment despite the fact that a particular PSAP request does not amount to a valid request for service under the Commission's rules, including in some markets where the PSAP has made only an oral request. In addition, in USCC's newly-acquired markets, USCC has proceeded with phase I or phase II roll-out to the entire market despite the fact that in some cases USCC received no formal request from a particular PSAP within that market.

To date, USCC has received 1043 requests for phase I service. Of these requests, ten have been determined by USCC to be invalid because no USCC cell sites route to the particular PSAP. USCC has successfully deployed phase I service to 997 PSAPs, representing

³ See *Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems; E911 Phase II Compliance Deadlines for Tier III Carriers Order*, 20 FCC Rcd. 7709 at ¶¶ 12-14, 16-17, 28-31 (2005).

an overall phase I deployment rate of over 96 percent. Of the remaining 36 outstanding phase I requests, 19 have been pending less than six months. Attached as Appendix A is a spreadsheet identifying those PSAPs requesting phase I service and the markets in which USCC has deployed phase I.

USCC has 17 PSAP requests for phase I service that have been pending for more than six months. For all of these outstanding requests, USCC has reached an agreement with the PSAP regarding a new target date for the deployment of phase I service. In these markets with delayed phase I deployments, the cause for the delay has been beyond USCC's control. In some instances, PSAPs have encountered delays in converting from a standalone ALI database to the LEC's database or have experienced problems with the trunks provided by the LEC to the selective router. In other cases, lack of funding at the PSAP has resulted in an inability of the PSAP to upgrade its equipment. USCC, with the assistance of Intrado, maintains regular contact with PSAPs in all of these markets and typically is ready to begin drive testing as soon as the PSAP is ready to deploy phase I.

III. Status of Phase II Requests

USCC continues to deploy phase II E911 service in accordance with the Commission's rules and the *Order to Stay*. To date, USCC has received 818 PSAP requests for phase II service. Eleven of these requests have been determined to be invalid because no USCC cell site routes to the particular PSAP or USCC does not provide service in that PSAP's area. USCC has successfully deployed phase II E911 service to 744 PSAPs in its service area, representing an overall phase II deployment rate of over 92 percent. USCC currently has 63 outstanding PSAP requests for phase II service, of which 42 have been pending less than six

months. The attached spreadsheet identifies those PSAPs requesting phase II service and the markets where USCC has deployed phase II service.

USCC has 21 phase II requests that have been pending more than six months. In each of the markets where phase II deployment has been delayed, USCC has obtained an agreement from the requesting PSAP to postpone the phase II roll-out deadline until a date certain or until 30 or 60 days after the PSAP is ready and able to utilize the phase II information. USCC and its vendors have completed all the necessary steps toward phase II deployment in each case and are waiting for the PSAPs to make the necessary corrections to and/or upgrade their systems. For example, one PSAP has experienced delays as a result of lack of funding to purchase upgraded hardware and software for its equipment. Another PSAP has experienced delays as a result of LEC issues involving the selective router and software upgrades. Other PSAPs do not have the proper equipment to receive and utilize phase II information.

USCC continues to work with Intrado to do the necessary calibration, accuracy and drive testing to ensure that USCC's phase II service meets the Commission's accuracy requirements. Intrado conducts testing on USCC's CDMA switches that are serving PSAPs with live phase II deployments. These tests are conducted using the CDMA location-capable mobile phones currently available to USCC's customers. Intrado's accuracy test results confirm that USCC is meeting the Commission's requirement that 67 percent of the calls are accurate to within 50 meters and 95 percent of the calls are accurate to within 150 meters.⁴ Intrado typically performs a complete accuracy test every six months on each USCC switch with deployed phase II service. USCC also contracts for the provision of regular updates to the Base Station

⁴ 47 C.F.R. § 20.18(h).

Almanacs ("BSA") for all of its cell sites serving CDMA markets where it has received a phase II request. The BSA improves the accuracy of location information provided to PSAPs.

IV. Status of Handset Deployment

USCC is 99.9 percent compliant with the Commission's May 31, 2004 deployment benchmark that 100 percent of new activations be GPS-enabled handsets.⁵ In its ongoing efforts to increase penetration rates of GPS-enabled phones, USCC pulled back all non-E911-enabled phones still in inventory at all of its retail locations in CDMA markets as of May 2004.

USCC currently has the following GPS-enabled handsets available for sale in its CDMA markets: LG 3300 TalkTracker® Flip, LG UX390, LG UX 210 Flip, LG UX 245 Camera, Bluetooth, LG UX355 CAMERA BT, Kyocera K132 Velvet, Kyocera 440 Bar, Kyocera K312 Lighting Camera, Kyocera KX21 STROBE Camera BT Disco, Kyocera KX5 SLIDER REMIX CAMERA, RIM BLACKBERRY 8703e, Samsung a645 Pascal Flip, Samsung U340Castor Camera, Samsung a870 Luna BT CAMERA, Samsung TG u520 EVDO camera, Motorola w315 Flip, Motorola V323i, Motorola L7c Slvr Camera, EVDO, Motorola Bag Phone M800BP, Motorola K1m KRZR EVDO CAMERA, Motorola RED K1m KRZR EVDO CAMERA, Motorola V3m RAZR camera Fire Red, Motorola V3m Razr EVDO camera BT Silver, Motorola V3m Razr EVDO camera, Nokia 6165I BTOOTH CAMERA, and Nokia 6019. USCC no longer places any purchase orders for non-E911 capable CDMA handsets nor does it restock non-E911 capable CDMA handsets sold at USCC's retail locations.

In December 2005, USCC filed a request for a limited, six month waiver of the Commission's rule requiring that 95 percent of all handsets in use on its network be GPS-

capable. USCC requested the extension, *inter alia*, to complete an unprecedented marketing campaign designed to encourage customers with non GPS-capable handsets as well as customers using handsets with unconfirmed GPS-capable handsets to upgrade their handsets. The campaign offered at least two GPS-capable handsets for \$.01 with no new contract requirement and no change in calling plans.

On January 5, 2007, the Commission released orders denying the handset penetration waivers of nine wireless carriers, including USCC.⁶ The *Order* denying USCC's waiver request imposed various reporting and filing requirements on USCC, including an obligation to provide quarterly updates to the Commission on its handset penetration rate. On January 19, 2007, pursuant to the *Order*, USCC filed a certification stating that no later than December 31, 2006, the percentage of location-capable handsets in use among all USCC subscribers exceeded 95 percent.

On February 5, 2007, USCC filed a Petition for Reconsideration ("Petition") of the *Order*. The Petition highlighted the results of efforts by USCC after filing the waiver request to analyze and confirm the GPS-capabilities of the handsets with unconfirmed GPS-capabilities. The Petition also reported the results of the \$30 million handset marketing campaign described above. In a Supplement to the Petition filed on May 23, 2007, USCC confirmed the following updated handset penetration statistics: (i) as of December 31, 2005, no less than 88.76 percent; (ii) as of July 15, 2006, at least 94.84 percent; (iii) as of August 31, 2006, at least 95 percent; and (iv) as of April 30, 2007, at least 96.05 percent.

⁵ See *Order to Stay* ¶ 27.

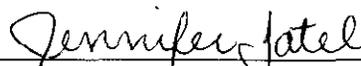

⁶ See *Request for a Limited Waiver of United States Cellular Corporation*, FCC 06-66, CC Docket No. 94-102 (released Jan. 5, 2007) ("*Order*").

V. Conclusion

As demonstrated above, USCC continues to make significant progress in deploying E911 phase I and phase II service throughout its service area. The commitment of significant financial and personnel resources has enabled USCC to move closer to its goal of meeting or exceeding the Commission's implementation deadlines for E911 deployment.

Respectfully submitted,

UNITED STATES CELLULAR
CORPORATION
