Re: *RM-11339 – Request by Globalstar, Inc. To Expand Its Ancillary Terrestrial Component Authority To Encompass Its Full Assigned Spectrum*

NOTICE OF ORAL EX PARTE COMMUNICATIONS

Dear Chairman Martin:

I am writing to notify the Office of the Secretary that earlier today, in separate meetings with Renée Roland Crittendon, Legal Advisor to Commissioner Jonathan Adelstein, and Wayne A. Leighton, Acting Advisor to Commissioner Deborah Taylor Tate, I presented the views of the Wireless Communications Association International, Inc. (“WCA”) with respect to the above-referenced petition by Globalstar, Inc. (“Globalstar”) for a rulemaking that would, *inter alia*, permit Globalstar to operate an Ancillary Terrestrial Component (“ATC”) on spectrum its satellite service shares with the Broadband Radio Service (“BRS”).

During the course of those discussions, I reiterated WCA’s opposition to any change in the Commission’s 2004 decision to restrict ATC to spectrum 3 MHz removed from the BRS band, consistent with WCA’s prior filings in this proceeding. I also emphasized that given the state of the record before the Commission, issuance of a *Notice of Proposed Rulemaking* proposing to change the Commission’s 2004 decisions regarding BRS/ATC sharing would be a poor use of valuable Commission resources and would have an adverse impact on the deployment of innovative new BRS and Advanced Wireless Service licensees.

Should you have any questions regarding this submission, please contact the undersigned. Pursuant to Sections 1.49(f) and 1.1206(b), a copy of this letter is being filed electronically with

WILKINSON) BARKER) KNAUER) LLP

The Honorable Kevin J. Martin
