Third Periodic Review of the)	MB Docket No. 07-91
Commission's Rules and Policies)	
Affecting the Conversion to Digital Television)	
)	

**COMMENTS OF
RAYCOM MEDIA, INC.**

Raycom Media, Inc. ("Raycom") submits these comments in response to the Commission's commencement of the Third Periodic Review of the transition to digital television.¹ In Appendix D to the *NPRM*, the Commission has published a list of stations that it believes to be "ready, or very close to ready," to make the transition.² The Commission has asked licensees with stations on the list to respond as to whether the stations are in fact already prepared for the transition. Raycom is the parent of the licensees of the television stations listed in Attachment A, which the Commission identified in Appendix D to the *NPRM*. It submits these comments to confirm that the stations listed in Attachment A are licensed at the facilities

¹ See *Third Periodic Review of the Commission's Rules and Policies Affecting the Conversion to Digital Television*, MB Docket No. 07-91, Notice of Proposed Rulemaking, FCC 07-70 (rel. May 18, 2007) ("*NPRM*").

² See *NPRM* at n.42 (explaining that the Appendix "includes those stations whose post-transition channel is the same as their pre-transition DTV channel and that have constructed their full, authorized DTV facilities") and at Appendix D.

listed in the recently released DTV Table of Allotments.³ In addition, station WTNZ-DT, Knoxville, Tennessee, licensed to WTNZ License Subsidiary, LLC, was not listed in Appendix D to the *NPRM*, but is licensed at the facilities listed in the DTV Table.⁴ Accordingly, the Raycom stations listed in Appendix D to the *NPRM*, as well as WTNZ-DT, are operating with licensed digital facilities that conform to the new DTV Table and thus are prepared for the DTV transition.

Respectfully submitted,

Jennifer A. Johnson
Robert M. Sherman

Counsel for Raycom Media, Inc.

August 15, 2007

³ See *Advanced Television Systems and Their Impact upon the Existing Television Broadcast Service*, Seventh Report and Order and Eighth Further Notice of Proposed Rulemaking, MB Dkt. No. 87-268, FCC 07-138 (“*DTV Table Order*”) (rel. Aug. 6, 2007).

⁴ There is a *de minimis* 0.2-second disparity between the latitude specified in WTNZ-DT’s license and the DTV Table. This disparity likely results from rounding the 12.8-second figure to 13 seconds for inclusion in the Table.
