

ATTACHMENT B

Sources Of Payment Unit Estimates For FY 2007

In order to calculate individual service fees for FY 2007, we adjusted FY 2006 payment units for each service to more accurately reflect expected FY 2007 payment liabilities. We obtained our updated estimates through a variety of means. For example, we used Commission licensee data bases, actual prior year payment records and industry and trade association projections when available. The databases we consulted include our Universal Licensing System (ULS), International Bureau Filing System (IBFS), Consolidated Database System (CDBS) and Cable Operations and Licensing System (COALS), as well as reports generated within the Commission such as the Wireline Competition Bureau's *Trends in Telephone Service* and the Wireless Telecommunications Bureau's *Numbering Resource Utilization Forecast*.

We tried to obtain verification for these estimates from multiple sources and, in all cases; we compared FY 2007 estimates with actual FY 2006 payment units to ensure that our revised estimates were reasonable. Where appropriate, we adjusted and/or rounded our final estimates to take into consideration the fact that certain variables that impact on the number of payment units cannot yet be estimated exactly. These include an unknown number of waivers and/or exemptions that may occur in FY 2007 and the fact that, in many services, the number of actual licensees or station operators fluctuates from time to time due to economic, technical or other reasons. Therefore, when we note, for example, that our estimated FY 2007 payment units are based on FY 2006 actual payment units, it does not necessarily mean that our FY 2007 projection is exactly the same number as FY 2006. It means that we have either rounded the FY 2007 number or adjusted it slightly to account for these variables.

FEE CATEGORY	SOURCES OF PAYMENT UNIT ESTIMATES
Land Mobile (All), Microwave, 218-219 MHz, Marine (Ship & Coast), Aviation (Aircraft & Ground), GMRS, Amateur Vanity Call Signs, Domestic Public Fixed	Based on Wireless Telecommunications Bureau (WTB) projections of new applications and renewals taking into consideration existing Commission licensee data bases. Aviation (Aircraft) and Marine (Ship) estimates have been adjusted to take into consideration the licensing of portions of these services on a voluntary basis.
CMRS Mobile Services	Based on Wireless Telecommunications Bureau reports.
CMRS Messaging Services	Based on Wireless Telecommunications Bureau Competition Report findings.
AM/FM Radio Stations	Based on CDBS data, adjusted for exemptions, and actual FY 2006 payment units.
UHF/VHF Television Stations	Based on CDBS data, adjusted for exemptions, and actual FY 2006 payment units.
AM/FM/TV Construction Permits	Based on CDBS data, adjusted for exemptions, and actual FY 2006 payment units.
LPTV, Translators and Boosters, Class A Television	Based on CDBS data, adjusted for exemptions, and actual FY 2006 payment units.
Broadcast Auxiliaries	Based on actual FY 2006 payment units.
BRS (formerly MDS/MMDS)	Based on Wireless Telecommunications Bureau reports and actual FY 2006 payment units.
Cable Television Relay Service	Based on data from Media Bureau's COALS database and actual

(CARS) Stations	FY 2006 payment units.
Cable Television System Subscribers	Based on publicly available data sources for estimated subscriber counts and actual FY 2006 payment units.
Interstate Telecommunication Service Providers	Based on actual FY 2006 interstate revenues reported on Telecommunications Reporting Worksheet, adjusted for FY 2007 revenue growth/decline for industry, and projections by the Wireline Competition Bureau.
Earth Stations	Based on International Bureau reports and actual FY 2006 payment units.
Space Stations (GSOs & NGSOs)	Based on International Bureau reports and actual FY 2006 payment units.
International Bearer Circuits	Based on International Bureau reports and actual FY 2006 payment units.
International HF Broadcast Stations, International Public Fixed Radio Service	Based on International Bureau reports and actual FY 2006 payment units.

ATTACHMENT C

Calculation Of FY 2007 Revenue Requirements And Pro-Rata Fees

Regulatory fees for the categories shaded in gray are collected by the Commission in advance to cover the term of the license and are submitted along with the application at the time the application is filed.

ATTACHMENT E

Factors, Measurements And Calculations That Go Into Determining Station Signal Contours And Associated Population Coverages**AM Stations**

For stations with nondirectional daytime antennas, the theoretical radiation was used at all azimuths. For stations with directional daytime antennas, specific information on each day tower, including field ratio, phasing, spacing and orientation was retrieved, as well as the theoretical pattern root-mean-square of the radiation in all directions in the horizontal plane (RMS) figure milliVolt per meter (mV/m) @ 1 km) for the antenna system. The standard, or modified standard if pertinent, horizontal plane radiation pattern was calculated using techniques and methods specified in §§73.150 and 73.152 of the Commission's rules.³⁴⁷ Radiation values were calculated for each of 360 radials around the transmitter site. Next, estimated soil conductivity data was retrieved from a database representing the information in FCC Figure R3³⁴⁸. Using the calculated horizontal radiation values, and the retrieved soil conductivity data, the distance to the principal community (5 mV/m) contour was predicted for each of the 360 radials. The resulting distance to principal community contours were used to form a geographical polygon. Population counting was accomplished by determining which 2000 block centroids were contained in the polygon. (A block centroid is the center point of a small area containing population as computed by the U.S. Census Bureau.) The sum of the population figures for all enclosed blocks represents the total population for the predicted principal community coverage area.

FM Stations

The greater of the horizontal or vertical effective radiated power (ERP) (kW) and respective height above average terrain (HAAT) (m) combination was used. Where the antenna height above mean sea level (HAMSL) was available, it was used in lieu of the average HAAT figure to calculate specific HAAT figures for each of 360 radials under study. Any available directional pattern information was applied as well, to produce a radial-specific ERP figure. The HAAT and ERP figures were used in conjunction with the Field Strength (50-50) propagation curves specified in 47 C.F.R. § 73.313 of the Commission's rules to predict the distance to the principal community (70 dBu (decibel above 1 microVolt per meter) or 3.17 mV/m) contour for each of the 360 radials.³⁴⁹ The resulting distance to principal community contours were used to form a geographical polygon. Population counting was accomplished by determining which 2000 block centroids were contained in the polygon. The sum of the population figures for all enclosed blocks represents the total population for the predicted principal community coverage area.

³⁴⁷ 47 C.F.R. §§ 73.150 and 73.152.

³⁴⁸ See *Map of Estimated Effective Ground Conductivity in the United States*, 47 C.F.R. § 73.190 Figure R3.

Rule Changes

Part 1 of Title 47 of the Code of Federal Regulations is amended to read as follows:

PART 1 – PRACTICE AND PROCEDURE

1. The authority citation for Part 1 continues to read as follows:
Authority: 47 U.S.C. 151, 154(i), 154(j), 155, 225, 303, 309.

2. Section 1.1152 is revised to read as follows:

§ 1.1152 Schedule of annual regulatory fees and filing locations for wireless radio services.

Exclusive use services (per license)	Fee Amount ³⁵⁰	Address
1. Land Mobile (Above 470 MHz and 220 MHz Local, Base Station & SMRS) (47 CFR, Part 90)		
a) New, Renew/Mod (FCC 601 & 159)	\$35.00	FCC P.O. Box 358130 Pittsburgh, PA 15251-5130
b) New, Renew/Mod (Electronic Filing) (FCC 601 & 159)	\$35.00	FCC P.O. Box 358994 Pittsburgh, PA 15251-5994
c) Renewal Only (FCC 601 & 159)	\$35.00	FCC P.O. Box 358245 Pittsburgh, PA 15251-5245
d) Renewal Only (Electronic Filing) (FCC 601 & 159)	\$35.00	FCC P.O. Box 358994 Pittsburgh, PA 15251-5994

³⁵⁰ Note that "small fees" are collected in advance for the entire license term. Therefore, the annual fee amount shown in this table that is a small fee (categories 1 through 5) must be multiplied by the 5- or 10-year license term, as appropriate, to arrive at the total amount of regulatory fees owed. It should be further noted that application fees may also apply as detailed in §1.1102 of this chapter.

**STATEMENT OF
COMMISSIONER MICHAEL J. COPPS
APPROVING IN PART, CONCURRING IN PART**

Re: Assessment and Collection of Regulatory Fees for Fiscal Year 2007, Report and Order and Further Notice of Proposed Rulemaking in MD Docket 07-81

I concur in today's item to emphasize my long-held and oft-repeated belief that the Commission should consider opening a formal rulemaking to address the adjustment of regulatory fees pursuant to section 9(b)(3) of the Act. In a rapidly-evolving communications marketplace, we need to look for ways to ensure that our regulatory fee methodologies continue to reflect the industries we regulate. In the absence of a separate rulemaking, I would have preferred to address the submarine cable issue in the *Further Notice* adopted herein. I hope that we act on the pending petition for rulemaking quickly.

**CONCURRING STATEMENT OF
COMMISSIONER JONATHAN ADELSTEIN**

Re: Assessment and Collection of Regulatory Fees for Fiscal Year 2007, Report and Order and Further Notice of Proposed Rulemaking, MD Docket No. 07-81

As in years past, I must concur to our Regulatory Fee Order because I remain troubled with the Commission's inability and reluctance to consider changes that occur from time to time in the costs of regulatory fees for individual services. It is particularly disappointing that the Commission misses an opportunity to address in this Further Notice the regulatory fees paid by submarine cable operators, who have argued that the current fee structure results in certain operators paying fees that can approach the wholesale prices they receive from their consumers. Given that these operators have pending a petition for rulemaking before the Commission, it is high time for the Commission to seek comment on these issues and is regrettable that we do not do so here. I encourage the Commission to continue to improve its regulatory fee assessment processes so that in the future we are more able to make adjustments as appropriate.
