

This message is being sent as a test of the Capwiz integration with your office's Web form. No response is necessary.

We send these tests to ensure that our database is in-sync with the latest updates to your form, including any new issue areas, required fields or authentication measures. We have utilized your district address to send this test message through your system to ensure that we had a correct district-based address.

Capwiz is a service of Capitol Advantage that helps advocacy groups connect constituents with their elected officials. Approximately 1,500 different associations use our online advocacy tool to contact their elected officials.

Each e-mail sent through our system has been created by a citizen who submitted the message through Capwiz. Messages are not generated from lists. More than 95 percent of messages sent through Capwiz are from constituents who reside in the recipient's state. While a number of these messages are form communications, an individual is behind each message sent.

If there are any questions about this test or about any of the messages sent through Capwiz, please contact Kenny Ames, Director of Government Outreach and Citizen Communications for Capitol Advantage.
