Secretary Marlene Dortch
Federal Communications Commission
Office of the Secretary
445 12th St. SW
Washington, DC 20554

Dear Secretary Dortch,

I write today in support of Docket #07-16 to provide M2Z Networks the resources it needs to provide free, fast and safe wireless broadband internet access to all Americans. This plan would allow anyone with a modem to connect to the Internet, and will provide sophisticated filters needed to protect our children while online.

With the sophisticated filters, parents and educators can give increased freedom to young people using the internet without worrying about what the children will encounter. Parents and teachers will no longer be expected to be computer experts in order to protect children while online.

M2Z's proposal will benefit small businesses, families, schools and communities and it is vital that everyone has adequate and reliable internet access. Every community across America will see the great benefits of a fully connected nation and I urge you to support the proposal by M2Z Networks to provide fast, free, family-friendly wireless broadband internet access.

Regards,

Carolyn B. Russell
