Re: Docket Number 07-16

Dear Secretary Dortch:

The internet is currently in high demand. Our daily life is based on internet communication to learn, work, play and communicate issues of importance to our communities. For those reasons all American families, schools, independent business and charitable organizations should have accessibility to internet service that's fast, free and family friendly.

Without access to the internet and its vast resources, many are missing out on many opportunities. More than half of American homes contain a computer, but as many as 120 million Americans have either limited or no internet connectivity at all. Meaning many are sidelined from the benefits of broadband access and the powerful services and opportunities that broadband access offers via the Internet. M2Z Networks guarantees delivery of fast, free and family-friendly broadband service to 95 percent of Americans, ensuring they have access to the services and opportunities other American Citizens already have.

Citizens deserve and need affordable broadband access to be part of the economy, use government services and participate in civic discourse. I have heard that your commission has received a proposal for fast, free, family-friendly internet. This would be a great service to the members of my community, as well as all citizens. Please help provide these people with benefits and opportunities by approving docket number 07-16 for free wireless broadband internet.

Sincerely,

Mark B. Deak  
Executive Director  
South Dakota Health Care Association

CC: Chairman Kevin Martin  
Commissioners: Copps, Adelstein, Tate McDowell  
Wireless Bureau Chief, Fred Campbell  
U.S. Senator Tim Johnson  
U.S. Senator John Thune
