*Re: Unlicensed Operation in the TV Broadcast Bands, ET Docket No. 04-186*

Dear Ms. Dortch:

On September 14, 2007, Kerry Murray and Neeraj Srivastava of Dell, Inc., and Paul Margie representing Dell, met with Commissioner Deborah Taylor Tate and her Legal Advisor Wayne Leighton, regarding the TV white spaces proceeding.

During this meeting, Dell stressed the importance of authorizing personal/portable devices, which will ensure the highest and best use of the white spaces while protecting incumbent operations in the TV bands. Dell stated that it was willing to work with the Commission on additional testing to resolve any open questions, even if such testing would require a short delay in the Commission's consideration of the matter and that it is ready to provide the Commission with assistance it requests related to additional testing. Dell also discussed how Dell products could integrate DTV and white space devices, field testing devices, and how US leadership in spectrum policy relates to policy making internationally.

Pursuant to the Commission's rules, a copy of this notice is being filed electronically in the above-referenced docket. If you require any additional information please contact the undersigned.

Sincerely yours,

*/s/ Paul Margie*
