

Don't bow to socialism -- fight it!

Net Neutrality is essential to free speech, equal opportunity and economic innovation in America. Since the FCC removed this basic protection in 2005, the top executives of phone and cable companies have stated their intention to become the Internet's gatekeepers and to discriminate against Web sites that don't pay their added tolls.

This fundamental change would end the open Internet as we know it. It would damage my ability to connect with others, share information and participate in our 21st century democracy and economy. The FCC must ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination.

In my 29 years on this earth I learned early on to think for myself and form my opinions based on fact and good morals. Our freedom is precious but sadly it is slowly waning. A limited or dictated internet may seem trivial but it would be a large feather in the socialism cap. Why should businesses dictate our freedoms for their own personal gain? Why should they be allowed to spin politics and "business" in their favor at the sacrifice of our freedom?

The internet has played a large role in America's economy and community alike. Don't let big businesses dictate our access to the internet. Please support open and equal access to the internet. A "tiered" internet is not good for anyone except big businesses and those in support of socialism.

Thank you.

Regards,  
Jennifer Fowler
