Subject: Neighborhoods First Alliance Supporters Endorse San Antonio Community Radio, Inc.

Dear Kevin Martin,

I am writing to express my support for San Antonio Community Radio, Inc. to receive a non-commercial educational full power radio frequency license during the October 12 - 19, 2007 auction window. San Antonio Community Radio's mission is to provide positive, high quality, innovative, and diverse educational and entertaining community-oriented radio programming for San Antonio, and the surrounding communities that have been under served by the local broadcasting businesses.

The local broadcasting businesses that monopolize the mass media in San Antonio and surrounding areas have marginalized the minority communities by providing:

- Programming aimed at negative messages of self, family and community
- Repetitious, canned programming of gangster rap and hate-filled hip hop music
- Unbalanced political rhetoric on talk shows without any minority representation to counter views
- Absolutely no opportunities for local artists to promote their positive music
- No local community news or public service announcements that promotes minority participation
- No emergency broadcasting service announcements for the African-American community
- Very limited pro-educational minority programming and none for the African-American community
- Comical teams of uninformed disc jockeys during prime radio commute time
- Program managers who are non-responsive and insensitive to the communities in which they serve
- Road blocks and excuses to community members when they request access to their public records.

Our community needs a radio station that emphasizes education, citizenship, and responsible social conduct. The broadcast agenda presented by San Antonio Community Radio addresses those needs and more and is responsive to our local community. The current information that impacts the lives of minorities in our community is a daily service that we have long desired to hear on our radio stations. Our community needs San Antonio Community Radio to help provide motivation to actively participate in creating positive economic development, and growth, to revitalize our neighborhoods and to take back our right to express our self-determination defined by our communities.

Sincerely,

Iris Suarez
