Re: CC Docket No. 96-45
Saddleback Communications
Supplemental Data as Required by 47 C.F.R. § 54.202

Dear Ms. Dortch:

Transmitted herewith on behalf of our client, Saddleback Communications, is a document containing the information required by Sections 54.202(b) and 54.209 of the Commission's Rules. Saddleback is an incumbent local exchange carrier which serves the Salt River Pima-Maricopa Indian Community in Arizona. It has been designated as an Eligible Telecommunications Carrier pursuant to Section 214 of the Communications Act since 1998. As a tribally-owned telecommunications company, it is not subject to the jurisdiction of the Arizona Corporation Commission.

Pursuant to Section 54.202(b), this information must be filed by October 1 of each year. Please excuse the two day delay in submitting the required information. The delay was due to a communications failure between undersigned counsel and Saddleback's management. I apologize for any inconvenience which may have been caused by this two day delayed filing.

Please direct any questions regarding this submission to undersigned counsel for Saddleback.

Sincerely,

Mitchell F. Brecher

Cable and access node at Section 12	Nov 2010	June 2010

- 2.) During the previous 12 month period, Saddleback did not have any outages that lasted at least 30 minutes in duration that affected at least ten percent of the users served in the area, or that potentially affected a 911 special facility.
- 3.) There were no requests for service from potential customer within the service area that were unfulfilled during the past year.
- 4.) During the previous 12 month period, Saddleback averaged three complaints per 1,000 lines from customers.
- 5.) Saddleback Communications will comply with all applicable consumer protection laws and industry standards, including those set forth by industry associations such as the U.S. Telecom Association.
- 6.) Saddleback Communications can remain functional in emergency situations because of:
 - Batteries and UPS (Uninterrupted Power Supplies)
 - Three 250KW Onan generators
 - FM200 fire suppression system
 - Redundant fiber paths
 - OC48 ring technology
- 7.) Saddleback is the incumbent LEC and offers equal access to long distance providers.
