

Pakistan School Bahrain

In the Bahrain newspapers a half page sensational news came fifteen days ago that there is a fraud in Pakistan School. It said the School has registered the students for such courses which are not available with Karachi University. It said parents are demanding investigation and refund of Fees. Pakistan Embassy said it was investigating. The Pakistan School first time came up with a bold reply. It stated these students were registered when school was under Pakistan Embassy control. The school said these students were registered on order of school board chairman who was the Ambassador. It also said that these students were not registered for study but only to fool the Bahraini authorities to facilitate these students to stay in Bahrain. Under law Bahraini authorities did not allow resident permit to children above age 19. The School Chairman the Ambassador wanted to help some special parents. This disclosure has sent a sensational debate for Bahraini people. The Bahrain Arabic

newspapers have asked for investigation that how a Muslim country Embassy was flouting rules. The diplomatic people have seen these as strange. One week later another scandal came that the Principal tried to strip naked a girl student and the case was registered with Police. The tired up senior ladies teachers for protection of their own feminine dignity and of girls the first time with courage contacted the press that no that sort of incident happened. These teacher openly said to press that the Pakistan Embassy was involved on these things. The real story is that all staff of Pakistan Embassy have got fee exemption for their children from poor students funds. A Bahrain newspaper recently in its article on elections said corruption in Pakistan has spread. It gave an example that all staff of Pakistan Embassy were getting education allowance from Islamabad but were getting fee exemption from poor students funds. The Principal after this article ordered his staff to charge fu

ll fee from all embassy staff. This annoyed and a scandal was made. Before this one principal last year also met same situation. Pakistan Embassy sent him a letter to bring his passports. He had refused to sign some vouchers showing expense. To avoid deportation he resigned. Another private school where children of only rich people study took him on more pay as he was an expert teacher. Now a third big scandal has been brought out that this year metric result of the school was too bad. The metric result of all schools in Pakistan and all foreign countries under Federal Board Islamabad was bad due to combined 9 and 10 classes examination. In all these scandals the teachers, the school and community first time came up boldly and in all clarifications name of Pakistan Embassy has openly come. This has given a bad impression about Pakistan. The Pakistan School remained for 35 years under Pakistan Embassy. One year ago the community snatched it under a parent committee. This dep

rived the embassy people their personal interests and through their agents they are filing newspapers with scandals. The 35 years embassy control on school has finished and they are trying to get back school under their control. The embassy has more time for such extra activities asking

people to make complaints against the school. Immediately after Lal Masjid the Ambassador in a press conference here said that Pakistan has taken all steps at airports and immigration that these Lal Masjid terrorists do not go to Bahrain and other Arab countries. This press conference was unnecessary. He only wanted to show how he was active. The Ambassador thus said that Pakistan was shipping surplus terrorists to other countries. This was loose mouth. The community elders reported this to Pakistan and the Ambassador's transfer order has come. He is trying to stop it. Four years ago Pakistan School was the only school in hundreds of local and foreign schools which was fined 70 lakhs rupees by

local authorities for violation of Bahrain laws. The Pakistan Ambassador was the chairman of the School. The Bahraini newspaper Bahrain Tribune used to write a weekly article Pakistan Round Up. It was a good article covering Pakistani community. Last year this newspaper wrote in its weekly article that there was a big rift between Pakistan Embassy and the Pakistani community. The Embassy threatened the newspaper and this article was closed permanently. The school has sixty lakhs Dinar (one Dinar = Rupees 155/-) fund in bank fixed deposit account which is making the Embassy restless. It is requested that the President of Pakistan may take all money from this school fund and give to Edhi. When there will be no fund, the Embassy will become clam and the school will get peace.
