Dear FCC:

I am writing this letter urging the FCC and Department of Justice to approve the unification of sirius and xm. The interest NAB is displaying to the merger demonstrates competition is alive and well within a variety of media mediums. Recently Ford motors announced the option for HD radio's to be installed as a standard feature clearly this is indicative of a changing media market that will only evolve with continued technology advancements.

Please support what is in the public's interest, vote yes to the merger. The public will benefit with more choices and savings.

Sincerely,

Jennifer Smith
