Denver, CO 80223
ATTN: Dennis Kalvels

Date: October 15, 2007

Subject: 700 MHz Relocation Certification Information. PS Docket No. 06-229; WT Docket No. 96-86 and DA 07-4168.

Per the FCC Public Notice DA 07-4168 of October 5, 2007 this letter is to provide requested information regarding public safety 700 MHz equipment that has and is being deployed in the State of Colorado.

State of Colorado has license WPTZ761 and has deployed as an integral part of a statewide Consolidated Communications Network of Colorado (CCNC) public safety communications network 18,938 mobile and portable handsets, as of August 30, 2007, in the 764-767/794-797 MHz and 775-776/805-806 MHz ranges. 703 agencies (See Attachment A) are authorized to operate these mobile and portable units in a statewide area of operation. The specific list of mobiles and portables is available on request.

State of Colorado has filed a Request for Waiver of Commission Rules, as this statewide system is not a static system but one that continues to be planned, constructed and deployed.

Currently the system also includes 118 base stations located at 16 sites (See Attachment B).

Contact for information on each of the identified handsets and base stations is:

Dennis Kalvels
Electronics Engineer
CCNC Rebanding Project Manager
