Re: Ex Parte Notice – Rural Health Care Support Mechanism,  
WC Docket No. 02-60.

Dear Ms. Dortch:

On October 15, 2007, Kirk Norris and Abigail Stork of the Iowa Hospital Association, Joe LeValley and Carmela Brown of Mercy Medical Center—Des Moines, David Lingren and David Swanson the of Iowa Communications Network, and Leo A. Bressanelli of Genesis Health Systems, collectively referred to as the “Iowa delegation,” and Laura Phillips and Robert Waters of Drinker Biddle & Reath LLP, met with Scott Bergman, Legal Advisor for Wireline Issues for Commissioner Adelstein, to review the Iowa Rural Health Telecommunications Program application that is a subject of *Rural Health Care Pilot Program Order* in the above-referenced docket.

The Iowa delegation highlighted the open and participatory process conducted under the auspices of the Iowa Hospital Association by which the Iowa Rural Health Telecommunications Program application was formulated and the understanding each participant had regarding the scope of its commitments; the technical superiority of the proposed use of the 3000 miles of buried fiber of the Iowa Communications Network to aerial fiber in terms of its robustness during extreme weather conditions not uncommon in Iowa; the scope of the technical connection and services the application anticipates providing to rural healthcare facilities throughout Iowa; and the comprehensive nature that this statewide “rising tide lifts all boats” approach offers both to those nearly 100 hospitals within the state that have already committed to and are listed in the application, as well as highlight future opportunities to connect those few hospitals in Iowa that elected not to be part of the initial broadband connectivity grant application. The attachment, from the Iowa Homeland Security and Emergency Management Department, reviews the extent of utility storm damage to aerial poles and fiber lines during a single storm last winter and this was handed out at the meeting.

Mr. Marlene Dortch
