Dear FCC:

How do we define competition in with satellite Radio?  
If I were to now buy a new Ford, Satellite Radio competes with  
AM/FM,HD,CD,Mp3 and Bluetooth Technology via my cell phone to receive  
internet broadcasting.

That alone is 6 choices just inside my car. Why is it necessary for me to  
purchase XM radio just to get the baseball games I enjoy?

A combined company will allow me to listen to the NFL and Baseball on one  
radio just like AM/FM has provided for decades.

I support the merger And hope you do as well.

Sincerely,

Rich Johnson
