Re: CC Docket No. 94-102,
95% ALI-Capable Handset Penetration Requirement,
Rule Section 20.18(g)(1)(v).

Seventh Quarterly Report

Dear Ms. Dortch:

By *Order (CC Docket No. 94-102)*, FCC 06-32, released March 15, 2006 (the “*Order*”), the Commission granted the Filer, CC Communications, an extension of time, up to and including March 15, 2007, within which to comply with the Rule Section 20.18(g)(1)(v) requirement that it achieve a 95% penetration level among its subscribers of ALI-capable handsets. The Filer has elected to deploy a handset-based E-911 solution. This report is submitted pursuant to the requirements of Paragraph No. 20 of the *Order*, and is as follows:

Item 1: The number and status of E-911 Phase II requests from Public Safety Answering Points (“PSAPs”), including those requests that the Filer may consider invalid: The Filer provides E-911 Phase II service to the Churchill County, Nevada PSAP. To date, the Filer has received no other PSAP requests for E-911 Phase II service.

Item 2: The dates on which E-911 Phase II service has been implemented or will be available to the PSAPs served by the Filer’s system: E-911 Phase II service was implemented for the Churchill County, Nevada PSAP in November of 2004. In accordance with Commission requirements, additional PSAP requests for E-911 Phase II service will be implemented within six months of the request, absent an extension of time from the Commission or an alternate deployment date obtained from the requesting PSAP. However, the Filer does not anticipate that it will receive any additional PSAP requests for the foreseeable future.

Item 3: The status of the Filer’s coordination efforts with PSAPs for alternative 95% ALI-capable handset penetration dates: Not applicable. The Filer has met the 95% ALI-capable handset penetration requirement.

Item 4: The Filer’s efforts to encourage customers to upgrade to ALI-capable handsets: The Filer has met the 95% ALI-capable handset penetration requirement; and

the Commission's Rules allow the Filer to continue service to up to 5% of units on the system that are not ALI-capable.

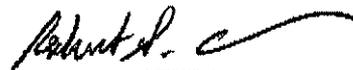

Item 5: The percentage of the Filer's customers with ALI-capable phones: As reflected in the Filer's "Fourth Quarterly Report," filed January 29, 2007 in this Docket, the Filer has met the 95% ALI-capable handset penetration requirement.

Item 6: Until the Filer satisfies the 95% penetration requirement, detailed information on the Filer's status in achieving compliance, and whether the Filer is on schedule to meet the revised, March 15, 2007, deadline: Not applicable. The Filer has met the 95% ALI-capable handset penetration requirement.

Very truly yours,

CC Communications
