Re: CC Docket No. 94-102,
95% ALI-Capable Handset Penetration Requirement,
Rule Section 20.18(g)(1)(v).

Seventh Quarterly Report

Dear Ms. Dortch:

By *Order (CC Docket No. 94-102)*, FCC 06-32, released March 15, 2006 (the "*Order*"), the Commission granted the Filer, Uintah Basin Electronic Telecommunications d/b/a UBET Wireless, an extension of time, up to and including March 15, 2007, within which to comply with the Rule Section 20.18(g)(1)(v) requirement that it achieve a 95% penetration level among its subscribers of ALI-capable handsets. The Filer has elected to deploy a handset-based E-911 solution. This report is submitted pursuant to the requirements of Paragraph No. 20 of the *Order*, and is as follows:

Item 1: The number and status of E-911 Phase II requests from Public Safety Answering Points ("PSAPs"), including those requests that the Filer may consider invalid: The Filer received an April 11, 2006 PSAP request for E-911 Phase II service from the PSAP for Duchesne, Uintah and Daggett Counties, Utah. To date, no other requests for E-911 Phase II service have been received.

Item 2: The dates on which E-911 Phase II service has been implemented or will be available to the PSAPs served by the Filer's system: In consultation with the requesting PSAP, Phase II service was initiated in Duchesne, Uintah and Daggett Counties, Utah on February 22, 2007. The requesting PSAP agreed to this deployment schedule.

Item 3: The status of the Filer's coordination efforts with PSAPs for alternative 95% ALI-capable handset penetration dates: Not applicable. The Filer has met the 95% ALI-capable handset penetration requirement.

Item 4: The Filer's efforts to encourage customers to upgrade to ALI-capable handsets: Not applicable. The Filer has met the 95% ALI-capable handset penetration requirement; and the Commission's Rules allow the Filer to continue service to up to 5% of units on the system that are not ALI-capable.

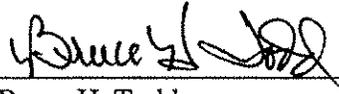

Item 5: The percentage of the Filer's customers with ALI-capable phones: As reflected in the Filer's "Fourth Quarterly Report," filed January 31, 2007 in this Docket, the Filer has met the 95% ALI-capable handset penetration requirement.

Item 6: Until the Filer satisfies the 95% penetration requirement, detailed information on the Filer's status in achieving compliance, and whether the Filer is on schedule to meet the revised, March 15, 2007, deadline: Not applicable. The Filer has met the 95% ALI-capable handset penetration requirement .

Very truly yours,

**Uintah Basin Electronic
Telecommunications d/b/a
UBET Wireless**
