

I am strongly against any changes to the proposed amendment to the cw spectrum. Amateur radio has endured many changes in the past few years and to that end, the fundamental rights of the majority are being ignored. We are a vital part of the community, as shown by many emergency situations in which the "HOBBY" has provided enormous help to the community. CW is a major part of this and to slowly push it aside is a travesty to the many hams that enjoy the hobby. CW is one of the building blocks of ham radio and is a major mode to the radio enthusiast. Dont squeeze us out!!!!!!
