Media ownership FCC Guilty of Treason

The condition of the current media in Chicago and through out America dose not represent the best interest of America. The owners of radio & television are not responsible with the privilege they have now with there ownership, why give them more power in terms of Big media ? They have not earned our trust. TV and RADIO ownership have repeatedly failed in every area from content to consolidation. Most maine stream Media operators appear to be working off the same cruel script. Instead of leading the American people in truth and Justice our radio and television ownership are misleading America. The FCC, our Political leaders in the House and Senate, Our Prosecutors and Judges in the Justice system are failing to protect the rights of American citizens under the constitution and really are guilty of treason. We the People seem to be so dependant on a Government who are operating under a seperate reality and agenda. They do get it. They do understand right from wrong. But Prof
it for the wealthy is there only concern. And we the People are following corrupt leaders to the fire..

Kind Regards,
Gregory Pitts
