Re: WT Docket No. 01-309
HAC Digital Wireless Telephones

Annual Report - 2007

Dear Ms. Dortch:

Walnut Communications, Inc. ("Walnut"), is the licensee of Station WPYR813 (D22 Block – Partitioned from the Omaha, Nebraska BTA) and Station WPTD295 (D14 Block – Partitioned from the Omaha, Nebraska BTA) in the Broadband Personal Communications Service. This report is submitted pursuant to the requirements of Paragraph Nos. 89 – 91 of the Commission's *Report and Order* (WT Docket No. 01-309), FCC 03-168, released August 14, 2003 ("R&O").

By way of background, Walnut is a small, Tier III Commercial Mobile Radio Service licensee, as defined in the Commission's E-911 *Order to Stay*, FCC 02-210, released July 26, 2002. Our broadband PCS systems employ a CDMA air interface. Because we offer two or fewer digital wireless handsets, Walnut qualifies for the *de minimis* exception to the Hearing Aid Compatibility ("HAC") rules, described in Rule Section 20.19 (e)(1).

Should you have any questions, please contact John Prendergast or Cary Mitchell of the law firm of Blooston, Mordkofsky, Dickens, Duffy & Prendergast, LLP. Either may be reached by calling (202) 659-0830.

Respectfully submitted,

WALNUT COMMUNICATIONS, INC.

Jim Hansen
General Manager
