Ms. Marlene Dortch
Secretary to Commission
Federal Communications Commission
Washington, DC 20554

Re: Docket No. 96-45

Dear Ms. Dortch;

On July 2, 2007, Westgate Communications LLC d/b/a WeavTel, submitted a petition for waiver of the Commission's Rules of Section 54.903(a), with respect to the Interstate Common Line Support ("ICLS") submission date for projected data from an incumbent local exchange carrier.

Westgate Communications LLC d/b/a WeavTel has expended large amounts of funds in good faith, expecting timely payments from USAC. Westgate spent these funds with reasonable belief that it would be reimbursed by USAC per industry standard.

Without the ICLS funds, Westgate will not be able to continue to provide services and effectively end service to Stehekin, Washington and Holden Village. Westgate does not believe this is in the public interest for 911 and universal service to these communities to cease.

Westgate requests the Commission approve the waiver and disburse funds while Westgate is still a viable company.

Sincerely,

Richard J. Weaver
Manager of Operations
