

We urge the FCC to grant the Kristin Brooks Hope Center Application for Review and return the toll free hotline numbers to KBHC promptly. If necessary to accomplish that, we support a temporary extension of the 12 month temporary re-assignment.

The hotline numbers are not broken and do not need to be fixed. The 1-800-suicide number works. I know this, and you know it too just by reading this letter, which I would not have been able otherwise to write. Have a heart. Please.
