

I'd like to express a complaint against the FCC in trying to commandeer the phone lines and resources of Hopeline and it's sibling services. They have done an excellent job helping the community, and in no way need the "assistance" that is being offered to them. In my opinion, it would be a great disservice to the community and the hardworking men and women that continue to uphold the quality of service and commitment to excellence that Hopeline and it's related services have provided. It is my hope that those involved in these proceedings can see past the cloak and dagger tactics employed by the FCC and allow Hopeline to maintain their resources and most excellent services.
