

FCC Chairperson,

I am requesting that the FCC end the exclusive cable contract that the Lansdowne HOA has with OpenBand. I am not happy with their expensive equipment rentals or inferior TV options. More importantly, I am not happy being forced to pay them fifty dollars a month for a product I do not use. I find it better to have DIRECTV since they have many more high definition, sports, and premium channels. In fact, I am only paying ten more dollars a month on top of the forced fifty dollars I pay OpenBand to have DIRECTV's Premium package. If the FCC banned this monopoly, DIRECTV would be forty dollars cheaper AND have many more options than OpenBand. Please end this unfair 25 year contract and let consumers choose their cable or satellite company.

Thanks,

Steven Barbosa
Lansdowne Resident
