

I am complaining regarding Telephon protection act. Just couple days ago when the FCC have final rule for the Media Owner my family and I having problem to contact each other. When my daughter try to call my my husband she got connected into my voice mail, and when my husband call my number his got connected into my daughter number. Also I am complain regarding SLAMMING. T Mobile have billed us and still showing our old number (408)802-7390, (408)802-7391 that has been reported to police for Violence/Fraudlent. We don't have those account number since August but on this month they send us the bill with the old number attached and replace My daughter new number: (408)667-6297. This report is not just about saftey act, but the fraudulent is still ongoing and competition for my company as well (RES ENTERPRISES). With comcast also they involve stilling my document and control my email and so forth.

Best Regard,
