

I want to express my voice in that I DO NOT think it would be beneficial to myself or other consumers if these two companies were to merge. The reason for this is simple. They would be so big that other companies wouldn't be able to compete thus consumers would not have a choice in choosing satellite radio. Also, the cost would not be something anyone could compete with that was starting out. I would like to see a stop to the merger between these two, and also the price regulated.
