

Consolidated Smart Systems will not send a receipt/bill for what is charged to you unless you deposit \$50. This \$50 may not be refunded when service is canceled if there are issues with your account such as non-payment, late payment, etc. In addition to the \$50, \$3 is charged each month to receive a paper statement of your bill each month. So either spend extra money to see a bill each month or Consolidated Systems will keep your credit card on file and automatically debit payment from your credit card with no receipt. There is no way to know what you are being charged for unless you spend \$50 on a deposit and \$3 dollars every month! Also, to note-they do not offer any sort of electronic bill/receipt that can be sent to e-mail once money is deducted from your account. It is truly either let them charge whatever/whenever they want on your credit card or pay extra money to see what charges are actually being billed. Since when do you have to pay to receive your own bill or your own receipt?
