

I would like to see AM-1560 The Touch radio in Kalamazoo convert to an FM station. It is the only station in the Kalamazoo area that serves the predominately African-American/minority community. This station needs to be heard on FM for better reception and sound quality. Also, I would like to see the station on the air 24-hours a day as it is the only minority "voice" on the airwaves in this area. Please grant permission for the station, WNWN-AM1560 The Touch in Kalamazoo/Portage, MI, to go to FM.

I like AM-1560 The Touch because it keeps listeners abreast of what's happening in the minority community. We need to have this voice available for a longer time, so please grant the request for AM stations to move to FM.

Thank you for your time in reading my comments!
