Re: CC Docket No. 94-102,
95% ALI-Capable Handset Penetration Requirement,
Rule Section 20.18(g)(1)(v).

Supplement to Seventh Quarterly Report

Dear Ms. Dortch:

By Order (CC Docket No. 94-102), FCC 06-32, released March 15, 2006 (the "Order"), the Commission granted the Filer, Texas RSA 15B2 Limited Partnership d/b/a Five Star Wireless, an extension of time, up to and including March 15, 2007, within which to comply with the Rule Section 20.18(g)(1)(v) requirement that it achieve a 95% penetration level among its subscribers of ALI-capable handsets. The Filer has elected to deploy a handset-based E-911 solution. On March 15, 2007, the Filer filed a second petition requesting a December 31, 2007 compliance deadline, which was granted in full by Order (CC Docket No. 94-102), Mimeo DA 07-2682, released June 18, 2007.

We hereby supplement our "Seventh Quarterly Report," filed October 31, 2007, to report that, as of December 21, 2007, the Filer's penetration rate for ALI-capable handsets had reached 95.4%. Therefore, the Filer is in compliance with the 95% penetration requirement codified in Section 20.18(g)(1)(v) of the Commission's Rules.

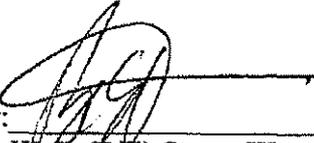

Very truly yours,

Texas RSA 15B2 Limited
Partnership d/b/a Five Star
Wireless
