

1580AM LUNk radio, Lincoln's Underground Network

I am part of a new, small radio station here in Lincoln called LUNk, Lincoln's underground Network. We are on 1580 AM, a low power radio station. Our power is so low, that it is within the FCC's restrictions on mandated material. We are looking for more people to host more time slots on the frequency, to please contact me at TheTilt@lunkradio.org if you are interested. LUNk radio is a progressive station, but all voices will be heard. visit our website (under construction at lunkradio.org).
