

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections.

The FCC ACT NOW to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information.

The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

This is NOT Communist china, and we are still a Republic, governed by Rule of Law, so use your position now to protect us from corporate greed and abuse.
