

It is alarming to me as a Hoosier that there is consideration of weakening Indiana's Do Not Call regulations. I believe it should be the right of Indiana or any other state to add extra protection for their citizens as they deem necessary. In this case I can assure you that it is necessary to prevent the assault that is continuing to take place by those who are contacting us without due cause and then continuing to contact us even after repeated requests to put us on their do not call list. They assure us each time that we will be put on their list and then continue to call. Please allow the Current Do Not Call laws of Indiana to stand AS IS. Thank you very much for listening to the Hoosiers of Indiana in this important matter.
