

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections.

The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information.

The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

We have had too much government interference with privacy and with consolidating corporate control at the expense of competition and journalistic honesty and integrity which has all but disappeared !! I urge and demand that net neutrality be preserved against any GOVERNMENT OR CORPORATE attempts to make a blatant power grab at the expense of the citizens of this country !! Enough is enough !!!!!
