

I am writing to support MB Docket No. 07-51.
In particular, the "bulk billing" portion of the order.
Currently, I am a member of a Home Owners Association (HOA)
Our HOA has a bulk billing contract for cable TV. (Comcast)
The bulk billing arrangements are part of a formalized
Agreement between the cable provider, (Comcast) and
The Home Owners Association. (HOA)
I would like to be able to choose another video provider.
However, I am unable to do so without having to pay
The cable TV provider (Comcast) in addition to the new video
Provider of my choosing. I believe this is discriminatory.
Our cable provider has removed channels from our package
In 2007 and increased our rates by 3 dollars per month.
I would like to have a choice of how to spend my video provider
Dollars without the penalty of having to pay twice. I urge the
Commission to vote in favor of MB Docket No. 07-51. Thank you
For your consideration.
