Subject: Concurrences from our neighbors...

Neighbors:

In view of the fact that the Regional Plans are changing in the 700 spectrum **the same** in all concerned states, and the fact that there is a limited time to revise and update the Plans (November 23, 2007), I am seeking an email concurrence for that update.

The only parts of our plans that are effected are those that list frequencies, essentially. Therefore I have attached our proposed update, along with supporting documents for your convenience. Please respond affirmatively and I will do so for you as well.

Thank you and Best Regards

Emery

PS. See you all in Austin, I hope.
