RE: Updated filing of Region 7 700 MHz Plan.

Greetings:

The Region 7 700 MHz Committee is pleased to present to the Federal Communications Commission the updated 700 MHz Plan as required by the Commission under the latest Rules. Included with the Plan and its supporting documents is a Request for Waiver for two non-responsive Regions.

The Region 7 700 MHz Committee requests approval of this updated and assures the Commission that we will continue to work with our neighboring Regions and the new association known as the National Region Planning Council. We also plan to be included in the re-packing of the 700 narrowband frequencies across the nation so we can remain compatible with our neighbors.

Your consideration and approval of this Plan, with its supporting documents, will be greatly appreciated by the people of Colorado.

Sincerely,

A handwritten signature in black ink, appearing to read 'Emery L. Reynolds'.
