RE: Alaska DigiTel, LLC, AKD Holdings, LLC, and GCI, Inc., WT Docket No. 08-10

Dear Sirs:

This letter will clarify one matter relating to documents the Applicants will produce pursuant to the terms of the Protective Order issued today.

The Protective Order is carefully designed to provide robust protection to proprietary and confidential information filed with the Commission, including responses to information and Document Requests, while at the same time providing other parties to Commission proceedings with a meaningful opportunity to review and comment on the evidence submitted in the record. Section 6 of the Protective Order permits Submitting Parties to exercise their judgment in identifying and designating as 'copying prohibited' those documents that contain information so sensitive that they should not be copied. We emphasize that this designation should be the exception, rather than the rule. The overdesignating responsive documents as 'copying prohibited,' which has emerged as a problem recently, frustrates the Commission's goals. Please note that the Commission reserves the right to take corrective measures to address such problems should they arise.

Feel free to contact me if you have any questions about this matter.

Sincerely,

Fred B. Campbell, Jr.
Chief, Wireless Telecommunications Bureau
