Re: CC Docket No. 94-102,
95% ALI-Capable Handset Penetration Requirement,
Rule Section 20.18(g)(1)(v).

Eighth Quarterly Report

Dear Ms. Dortch:

By Order (CC Docket No. 94-102), FCC 06-32, released March 15, 2006 (the "Order"), the Commission granted the Filer, Texas RSA 15B2 Limited Partnership d/b/a Five Star Wireless, an extension of time, up to and including March 15, 2007, within which to comply with the Rule Section 20.18(g)(1)(v) requirement that it achieve a 95% penetration level among its subscribers of ALI-capable handsets. The Filer has elected to deploy a handset-based E-911 solution. On March 15, 2007, the Filer filed a second petition requesting a December 31, 2007 compliance deadline, which was granted in full by Order (CC Docket No. 94-102), Mimeo DA 07-2682, released June 18, 2007.

This report is submitted pursuant to the requirements of Paragraph No. 20 of the March 15, 2006 Order and Paragraph No. 15 of the June 18, 2007 Order, and is as follows:

Item 1: The number and status of E-911 Phase II requests from Public Safety Answering Points ("PSAPs"), including those requests that the Filer may consider invalid: On August 13, 2007, the Filer received a written request (dated July 25, 2007) for E-911 Phase II service for Kendall and Gillespie Counties from the Alamo Area Council of Governments ("AACOG"). The request was later withdrawn unilaterally by AACOG on the grounds that the request was sent to the Filer in error. The Filer has not received any other PSAP requests for E-911 Phase II service.

Item 2: The dates on which E-911 Phase II service has been implemented or will be available to the PSAPs served by the Filer's system: E-911 Phase II service has not been implemented on the Filer's system. In accordance with Commission requirements, E-911 Phase II service will be implemented within six months following

receipt of a valid PSAP request, absent an extension of time from the Commission or an alternate deployment date negotiated with the requesting PSAP.

Item 3: The status of the Filer's coordination efforts with PSAPs for alternative 95% ALI-capable handset penetration dates: No applicable. The Filer has met the 95% ALI-capable handset penetration requirement.

Item 4: The Filer's efforts to encourage customers to upgrade to ALI-capable handsets: The Filer has met the 95% ALI-capable handset penetration requirement; and the Commission's Rules allow the Filer to continue to serve up to 5% of units on the system that are not ALI-capable.

Item 5: The percentage of the Filer's customers with ALI-capable phones: As reflected in the Filer's "Supplement to Seventh Quarterly Report," filed January 10, 2008 in this Docket, the Filer has met the 95% ALI-capable handset penetration requirement.

Item 6: Until the Filer satisfies the 95% penetration requirement, detailed information on the Filer's status in achieving compliance, and whether the Filer is on schedule to meet the revised, March 15, 2007, deadline. In this regard, the Filer must include a detailed, specific explanation of how it arrived at its estimate of whether it is on track to meet the compliance deadline, including an explanation of any assumptions it has made. The Filer must also include a discussion of how its compliance efforts compare with the efforts of other Tier III carriers – particularly efforts the Commission has cited in previous orders – and an explanation of why the Filer has chosen the compliance efforts it has chosen: Not applicable. The Filer has met the 95% ALI-capable handset penetration requirement.

Very truly yours,

Texas RSA 15B2 Limited
Partnership d/b/a Five Star
Wireless
