Re: Unlicensed Operation in the TV Broadcast Bands, ET Docket 04-186

Dear Ms. Dortch:

On Tuesday, February 5, 2008, Mr. Michael Dell, Chief Executive Officer, Dell Inc., Becca Gould, Vice President of Global Government Relations and Public Policy, Dell Inc., and Kerry Murray, Senior Counsel, International Government Relations and Public Policy, Dell Inc. met with Chairman Kevin Martin and Aaron Goldberger, Wireless Legal Advisor.

They discussed the status of testing of prototype devices in this proceeding. Mr. Dell underscored Dell's desire to see more people connected, faster and less expensively, as soon as possible. To that end, Mr. Dell also addressed the proposed uses of the prototype white spaces devices, including next generation Wi-Fi and wireless in-home networking. Finally, Mr. Dell encouraged the Chairman to conclude the white spaces proceeding as soon as possible following the completion of testing.

Respectfully submitted,

A handwritten signature in black ink that reads "Kerry Murray". The signature is written in a cursive, flowing style.

Kerry E. Murray  
Senior Counsel, Dell Inc.

cc: Aaron Goldberger
