

FCC people ,I live in live oak community and we are bound to century communications for next 15 years for our internet and cable services and they promised to give us a market-competitive product which they cannot or will not deliver even in future with there existing infrastruture .They dont have DVR option or HD oprtions .For the same rate what we are paying for century communications i can get very good service from verizon or brighthouse .We are not being treated fairly in this situation and are strapped with something of which we had little knowledge at the time we purchased our homes. Please help us
