Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554

Re: Ex Parte Notice – WC Docket No. 05-196

Dear Ms. Dortch:

Pursuant to Section 1.1206 of the Federal Communications Commission's (Commission) Rules, this letter serves to provide notice in the above captioned proceedings of a meeting that occurred on February 6, 2008 between representatives of Intrado Inc. (Intrado), and the following Commission personnel:

Erika Olsen, Deputy Chief, Public Safety & Homeland Security Bureau
Carol Simpson, Associate Chief, Public Safety & Homeland Security Bureau

In attendance on behalf of Intrado were Tim Jenkins, Vice President, Advanced Provider Services Division and the undersigned.

In this meeting, Intrado discussed its next generation 911 offering built on Intrado's Intelligent Emergency Network® architecture. Intrado informed the Commission of its trial environment, as well as the beta trial objectives. For more information, please see the attached presentation.

In addition, Intrado shared its recommended 911 Service Standards document with the Commission and encouraged the Commission to incorporate such requirements when promulgating future rules for next gen 911 services. Intrado strongly believes that its recommended 911 standards are the foundation for delivering reliable and redundant emergency communications, and the document is attached for further review.

Please contact the undersigned with any questions.

Very truly yours,

/s/

Susan A. McGurkin
Director, Federal Government and Regulatory Policy
