

Dear FCC:

I would like to comment about Verizon Wireless's proposed acquisition of Unicel. When I selected Unicel for my personal service 4 years ago I did specifically because they offered a better price than Unicel. When I renewed my service 2 years ago I did specifically because of the GSM network. At this time I know that the GSM network provides better reception in the northern part of the state, particularly better than Verizon and I know that because I use Verizon service on my work provided phone. I own 2 GSM phones and I know that Unicel does not lock them so that they could be readily used with any GSM service but I will need a new phone with Verizon. I believe that if Verizon purchases Unicel they will have a virtual monopoly in Vermont and Unicel customers in the state will be paying more for poorer service and having to purchase new phones to access the service.
