

I pay PEOPLE PC Online for "Unlimited Internet" via Dialup. They without warning Disconnect Me after 4 Hours on the Internet! They refuse to admit the problem is on Their Service! THIS IS UNACCEPTABLE BECAUSE I use the Internet, among other things, to Download Updates to Applications and Utilities, whom often do NOT have a "continue download" feature and can take Hours to complete a download! Being DISCONNECTED without warning is NOT what I am paying for and Corrupted Files are Not what I bargained for when I signed on with People PC! They charge \$10.95 a month for "Unlimited Dialup Service", BUT give me "Limited Dialup Service" everytime which is Fraudulent!
