This letter is in reference to a request for a waiver filed on February 14, 2008, Confirmation #2008214616215. The request read as follows:

Centerville Public Schools would like to submit a Request for Waiver of the FCC Form 470 and Form 471 filing window deadlines. I am the person responsible for filing these forms and inadvertently missed the first deadline due to the belief that the form had already been filed. Although I completely understand the importance and necessity for deadlines, as a very small and relatively poor school district, we are asking that the FCC consider waiving the Form 470 and Form 471 deadlines. We received \$4642 in Erate funds last year and although this is a rather small amount, the money means a great deal to our district's budget.

Centerville School District sincerely hopes you will consider this request.
