

That is really awful, to buy net neutrality!! disgusting! If i keep hearing about underhanded stuff like this, i will switch to other services. i will even cut my cable off! This isnt about money comcast, this is about having my own freedom to learn, and experience things on the internet that i will not be blinded!

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections.

The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information.

The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.
